Spring has sprung at Gloria Fuertes!

This month Gloria Fuertes students participated in so many fun activities! First, our students went on a field trip to the Universidad de Jaen for a presentation on engineering. The students learned about engineering as a career and got to use an important interactive imaging tool using sand and projection software.

**Students also learned about 3D imaging and were given 3D glasses to wear to learn more about mapmaking and engineering.**

### St. Patrick's Day

The following week, we celebrated St. Patrick's Day! St. Patrick's Day is an Irish holiday that is celebrated in many countries around the world. St. Patrick is the patron saint of Ireland, and he brought Christianity to Ireland. Today, many people celebrate by wearing green clothes, eating and drinking green-colored food and drink, and by attending parades and listening to Irish music.

Teacher Sydney gave a St. Patrick's Day presentation, which included a video of cities around the world celebrating the Irish holiday. After, students used their new vocabulary from the presentation to complete a word search. The students also had lots of fun learning to draw a leprechaun! Kindergarten and first grade got to make fun leprechaun hats to wear. There were also lots of coloring pages to fill out, from first to sixth grade!

## Easter

Easter is coming next week (Semana Santa) and students will enjoy a whole week off of school. Teacher Sydney delivered an Easter presentation with a fun vocabulary game from Wordwall, which helped students learn Easter words like bunny, basket, and tradition. Third grade through sixth grade got to complete a fun word search to help them seal in those vocabulary words. Kindergarten, first, and second grade got to color in an Easter egg with words and shapes in English. Kindergarten also got to make a funny Easter bunny craft! Some students even brought in their own dyed eggs. We are so excited for Easter!
